IV. Definitions

I. INVESTMENT OBJECTIVES

The primary investment objective of the Stable Income Fund ("Fund") is preservation of principal. The Fund will also seek to achieve a reasonably stable quarterly return, a high level of liquidity for participant withdrawals and a total return which, over time, exceeds the Fund's Benchmark: the Rolling Yield of the 5-Year Constant Maturity Treasury ("CMT").

II. INVESTMENT STRATEGY

The Fund seeks to achieve its investment objective through a portfolio consisting primarily of stable value products, as described in these Investment Policies and Guidelines (the "Overall Investment Policy"). Goldman Sachs Asset Management, L.P., the provider of the Fund's Stable Value Structure Management Services ("GSAM"), shall be responsible for the Fund's duration management, liquidity, Guaranteed Investment Contract ("GIC") placements, management of Wrap Contract Sub-Manager and Separate Account portfolio allocations and such other responsibilities and duties as set forth in this Overall Investment Policy and the Stable Income Fund Structure Management Agreement ("Agreement"). Capitalized terms used herein which are not otherwise defined shall have the meaning given to such terms in the Agreement.

A. Permitted Investments

As assets become available for reinvestment, the Fund's assets may be reinvested in the Stable Value Sectors listed below:

(1) Cash or Cash Equivalents. Cash/cash equivalent investments consist of short-term collective investment funds ("STIFs"), money market funds or other high-quality, cash equivalent investments managed by the Sub-Manager of the Cash Portfolio in accordance with the Sector Guidelines set forth in Section III.

(2) Units of Stable Value collective investment trusts ("CITs") as described below in "Summary Description of Stable Value Sectors" not otherwise included in (4) below which provide book value accounting as part of the CIT structure. Each of the foregoing investments shall have a minimum average credit rating of "A+" at the time of purchase.

(3) GICs as described under "Summary Description of Stable Value Sectors" below.

(4) Separate Accounts as described under "Summary Description of Stable Value Sectors" below.

(5) Wrapped Fixed Income investments (also referred to as "Synthetic GICs"), as described below in "Summary Description of Stable Value Sectors", wrapping fixed income securities within the limitations set forth in the Fixed Income Sector Investment Guidelines

B. Fund Diversification

As assets become available for reinvestment, the Fund's assets will be allocated by GSAM according to the Stable Value Sector guidelines as follows:

Allocation Guidelines for Stable Income Fund	
Stable Value Sector	**Permissible Range**
Cash/Cash Equivalents	0-50%
Stable Value CIT	0-5%
GICs	0-20%
Separate Accounts	0-90%
Wrapped Fixed Income/Synthetic GICs	25-100%

In managing and monitoring the Fund's allocations within the above Allocation Guidelines, GSAM will assess the Fund's duration, the Fund's immediate and anticipated liquidity needs, the terms of the investment contracts, the Fund's long-term objectives, the performance of the various Sub-Managers and Separate Accounts and such other factors that GSAM deems prudent. In the event that the Fund's allocation is outside the Allocation Guidelines, GSAM will notify the Board in writing and will reallocate the Fund's assets to the above Allocation Guidelines within 10 Business Days, absent approval by the Board of a longer time period or a delay in effecting transactions on the part of one or more Sub-Managers.

C. Summary Description of Stable Value Sectors

(1) **Wrapped Fixed Income**. The Wrapped Fixed Income component may consist of a portfolio or portfolios of fixed income securities and one or more Wrap Contracts to provide book value liquidity with respect to fixed income portfolios for Plan benefit payments. All Wrap Contract issuers shall be on GSAM's approved wrap issuer list at the time of placement. In addition to individual securities holdings, this component may consist of actively managed portfolios of fixed income securities subject to a sub-advisory agreement with a Sub-Manager, units of CITs, or shares of mutual funds.

(2) **Stable Value Collective Investment Trusts**. The Stable Value CIT component shall consist of collective investment trusts with similar objectives as set forth herein. Fund assets may be invested in units of Stable Value CITs.

(3) **GICs**. The GICs component will generally consist of investment contracts backed by the general account assets of qualified insurance companies or major money center banks or other financial institutions. GSAM will restrict new investments in GICs to those issuers included on GSAM's approved list, with a limit of 5% of the Fund's assets in any one issuer, measured at the time of purchase. GSAM will

provide the Board with a description of GSAM's approved list, as amended from time to time.

(4) **Separate Accounts.** Separate Accounts will consist of separate account contracts with insurance companies on GSAM's approved list of issuers under which (i) the assets contributed by the Fund are invested within the limits set forth in Fixed Income Sector Investment Guidelines, (ii) the insurance company provides coverage for book value accounting, and (iii) the assets contributed by the Fund are segregated from the general assets of the insurance company, or any other similar product.

(5) **Cash or Cash Equivalents**. The Cash/Cash Equivalents component is described in the Cash Portfolio Investment Guidelines in Section III hereof.

D. Deviations

Deviations from the diversification requirements set forth in sections B and C above are acceptable if at the time of the investment it is known that such deviation will occur and is mutually agreed to in writing by GSAM and the Board.

E. Fund Duration

The duration target of the Fund shall be 3.0 years, with a permissible range of 1.5 years to 4.0 years. GSAM will manage the Fund duration through the allocations to the various Stable Value Sectors and Sub-Managers. The Sub-Manager allocations will be adjusted as necessary based on the actual durations of the respective Sub-Managers' portfolios.
