Investment Risk

The Fund may invest in any or all of the following investments, each of which poses its own unique set of risks.

- Foreign Securities Funds/Emerging Markets Funds: Funds that invest
 in foreign securities involve special additional risks. These risks include,
 but are not limited to, currency risk, political risk, and risk associated with
 varying accounting standards. Investing in emerging markets may
 accentuate these risks.
- Small Cap Funds: Funds that invest in stocks of small companies involve
 additional risks. The securities of these companies may be more volatile
 and less liquid than the securities of larger companies. Smaller companies
 typically have a higher risk of failure, and are not as well established as
 larger blue-chip companies. Historically, smaller-company stocks have
 experienced a greater degree of market volatility than the overall market
 average.
- Fixed Income Funds: Funds that invest in lower-rated debt securities
 (commonly referred to as junk bonds) involve additional risks because of
 the lower credit quality of the securities in the portfolio. This may cause
 possible higher level of volatility and increased risk of default.
- Funds containing Direct Property Investments or Real Estate Investment Trusts (REITs): Funds that invest directly in real properties or indirectly through REITs involve special additional risks. These risks include: risks associated with a lack of liquidity during times of stress in the real estate markets; risks associated with valuation standards; risks associated with the financing of the underlying properties; and general risks affecting the real estate market. Historically REITs have experienced a greater degree of market volatility than the overall stock market average.

Investment Fees

The participant will incur management fees, trustee fees, and other operating expenses related to the Fund. Other operating expenses may include, but are not limited to, audit expenses, custody service fees, tax form preparation expenses, legal and other fees.

The participants in the Fund will also incur expenses from the Underlying Funds, which includes management fees, audit fees, trustee fees, and other expenses (the "Acquired Fund Fees and Expenses") in relation to the management of the Underlying Funds. Some of the Acquired Fund Fees and Expenses are expensed directly to the Underlying Funds and are not charged directly to the Fund. They are not direct costs paid by the Fund and are not used to calculate the Fund's net asset value. They have no impact on the costs associated with Fund operations. However, some of the Acquired Fund Fees and Expenses are accrued for in the Fund and therefore directly impact the Fund's net asset value.

The Fund's net expense ratio is 0.53% of net assets. This is an estimated rate. Below is a breakdown of the fees on the Fund:

Callan GlidePath® 2060 Fund	
Management Fee:	0.15%
Trustee Fee:	0.10%
